**NEW YORK, August 14, 2019** – Inc. magazine today revealed that Business IT Source is No. 3065 on its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. Microsoft, Dell, Domino's Pizza, Pandora, Timberland, LinkedIn, Yelp, Zillow, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

“Our highest priority is to provide flexible, personalized services that are customized to individual company's needs. Imaging, asset tagging, project management and on-site services are just a few services we provide while saving companies on product acquisition cost by providing the best value in the industry,” says CEO Bob Frauenheim. “Our unique ability to stock product, reserved for customers, so it's always available to ship allows customers smooth product rollout despite product shortages and product transitions.”

Not only have the companies on the 2019 Inc. 5000 (which are listed online at Inc.com, with the top 500 companies featured in the September issue of Inc., available on newsstands August 20) been very competitive within their markets, but the list as a whole shows staggering growth compared with prior lists. The 2019 Inc. 5000 achieved an astounding three-year average growth of 454 percent, and a median rate of 157 percent. The Inc. 5000's aggregate revenue was \$237.7 billion in 2018, accounting for 1,216,308 jobs over the past three years.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at [www.inc.com/inc5000](http://www.inc.com/inc5000).

“The companies on this year's Inc. 5000 have followed so many different paths to success,” says Inc. editor in chief James Ledbetter. “There's no single course you can follow or investment you can take that will guarantee this kind of spectacular growth. But what they have in common is persistence and seizing opportunities.”
